Summary

I am a student in the first year of Computer Engineering, option Software Engineering and Networks at engineering school "Sup-Galilée" université Paris 13 Sorbonne paris nord - institut galilée Paris French . I have strong skills in software engineering and engineering mathematics. I am a person interested in Software development, ready to learn new knowledge to develop my skills and I am so excited to work in a team. I have two different experiences in two different IT companies. My role in that experience was a full stack developer (mobile and web development using Flutter and Symfony).

Experience

Full Stack Developer (Flutter & Symfony 5)

BIG4COM

Apr 2022 - Sep 2022 (6 months)

Au cours de mon premier mois chez Big4Com, j'ai travaillé sur une application appelée BROKER, une application mobile et web pour la location de logements et la réservation de taxis (back office et front office) en utilisant Flutter pour le développement mobile (front end) et Symfony pour le développement web (back end).

J'ai travaillé avec une équipe de trois personnes sur une plateforme e-learning (je suis le responsable du développement de la version mobile utilisant React-native, "react-native CLI").

De plus, j'ai été le représentant de Big4Com dans la cité de l'innovation Marrakech.

*ENGLISH :

During my first month at Big4Com, I worked on an application called BROKER, a mobile and web application for renting accommodation and booking taxis (back office and front office) using Flutter for mobile development (front end) and Symfony for web development (back end).

I worked with a team of three persons on an e-learning platform (I was responsible for the development of the mobile version using React-native, "react-native CLI").

In addition, I was the representative of Big4Com in the city of innovation Marrakech.

développeur web full stack Symfony 4 Php

samabcom

Jun 2021 - Jul 2021 (2 months)

Dans ce stage, j'ai travaillé sur deux projets différents:

Développement du site Internet de l'entreprise et création une application Web de commerce électronique.

*ENGLISH :

In this internship, I worked on two different projects:

Development of the company's website and creation of an e-commerce web application.

Education

Sup Galilée

Engineering degree, Computer Software Engineering

Sep 2022 - Sep 2025

Higher School of Technology of Essaouira - Cadi Ayyad University

Technical University degree, Computer Software Engineering

Sep 2020 - Sep 2022

Lycée Mohamed V d'Essaouira

baccalauréat, Sciences Mathématiques B option français.

Sep 2019 - Jul 2020

Licenses & Certifications

Responsible for support courses in Algorithm and C programming language -

Club Digital Initiative

Multimedia Manager - club Digital Initiative

Front-end development track - Udacity

NWHFSY5K

Full Stack development track - Udacity

XCJEHPDW

Java Programming - GreatLearning
